

## **Custom Color Program**

Definition of a custom color: Any color chosen that is not sampled in the display

Additional cost of products made with custom colors: See dealer for pricing.

Cost of custom color samples for client approval: \$350 per sample made.

### **Choosing a custom color:**

#### ***Option #1***

Any Benjamin Moore paint color can be made into NatureCast Concrete products. Simply choose your color from any Benjamin Moore fan book, and order a custom sample made in that color for client approval.

#### ***Option #2***

Provide a sample of color (fabric, tile, stone, etc.). Order a sample made to match for client approval.

#### **Note:**

Lead time for custom color samples ranges from two to three weeks from placement/payment of sample order.

NatureCast Concrete is a hand-crafted product and will have some variation from sample to finished product.
